Career Objective

Computer Science undergraduate (CGPA 8.99) skilled in Java, React, and SQL, with hands-on experience in full-stack development and machine learning. Seeking a Software Engineer role to build scalable, efficient software solutions.

Education

KL University , Hyderabad B.Tech in Computer Science and Engineering	CGPA: 8.99 Jul 2023 – May 2027
Prathibha Junior College , Mahabubnagar Intermediate (MPC)	CGPA: 7.94 Jun 2021 – Mar 2023
Mary Matha High School , Pentlavelly Secondary School Certificate (SSC)	GPA: 10/10 Mar 2021

Skills Summary

Languages: Java, Python, C, SQL
Web Technologies: HTML, CSS, JavaScript
Frameworks: React, Pandas, NumPy, Spring Boot
Tools: Power BI, Excel, PowerPoint, Tableau
Platforms: Jupyter notebook, VS Code, IntelliJ IDEA
Concepts: DBMS, OOPs, Software Testing Basics, Data Structures

Projects

Hotel Management System

- Developed a Hotel Management System using Java and MySQL for room bookings, check-ins/outs, and billing
- Optimized SQL queries for fast retrieval of room and guest records
- Implemented role-based access control (admin vs. staff) and designed a normalized database schema with tables for rooms, guests, and bookings

Hybrid Quantum-Classical Movie Recommendation System

Ongoing

- Built a hybrid recommendation system combining variational quantum circuits (PennyLane) with classical deep learning (PyTorch) for personalized Top-K movie recommendations
- Trained the model on the MovieLens 100K dataset, integrating quantum circuit outputs with classical neural network layers
- Currently evaluating performance using RMSE and Top-K metrics, with benchmarking against a classical-only baseline in progress

Certificates

AWS Certified Cloud Practitioner Cloud fundamentals, core services (EC2, S3, RDS), security, and pricing best practices	<i>Feb 2026</i>
MongoDB Associate Developer Building and managing applications with MongoDB, including data handling and query optimization	<i>May 2025</i>

Internships

Software Development Intern Successfully completed AICTE–Google Android Developer Program, developing production-level mobile apps and improving app performance by 20% through code optimization	<i>AICTE–Google Android Developer Program</i>
Data Visualization Intern Conducted visual analysis of U.S. Natural Disaster Declarations using Power BI, identifying trends and patterns to support data-driven insights	<i>Infosys Springboard, Feb 2026 – Apr 2026</i>
