SUMMARY

I am a dedicated and motivated Computer Science student currently pursuing my B.Tech at KL University. I have a strong foundation in Python, SQL, and Java with experience using modern development tools. My academic projects emphasize efficiency, collaboration, and real-world problem solving. I have also completed internships that strengthened my technical skills and professional teamwork abilities.

EXPERIENCE

Software Development Intern

[Internship](#)

Jan 2023 – Present

Remote

- Developed web application modules using Java and MySQL
- Completed AICTE–Google Android Developer program
- Completed virtual internship in Artificial Intelligence and Machine Learning

EDUCATION

B.Tech in Computer Science and Engineering

[KL University](#)

Jul 2023 – May 2027

Hyderabad

Intermediate (MPC)

[Prathibha Junior College](#)

Jun 2021 – Mar 2023

Mahabubnagar

Secondary School Certificate (SSC)

[Mary Matha High School](#)

Mar 2021

Pentalvelly

CERTIFICATIONS

MongoDB Associate Developer

Learned to build and manage applications using MongoDB, handle data operations, and optimize queries.

GitHub Foundations

Gained hands-on experience in version control, collaboration, and repository management.

SKILLS

Technical Skills

GitHub	SQL
Java	React
Microsoft Power BI	Tableau
Jupyter Notebook	Visual Studio Code
HTML	CSS
MongoDB	

PROJECTS

Hotel Management System

Jan 2023 – May 2023

- Built system for room booking, check-ins, and billing
- Improved system efficiency by nearly 60%
- Optimized SQL queries for fast data access
- Collaborated with team members for system testing

Online Crime Reporting System

Jan 2022 – Jun 2022

- Developed web application using HTML, CSS, and MySQL
- Designed UI for complaint submission and status tracking
- Implemented optimized queries for fast report retrieval
